	928610870	(R009)	160 x 600	M14	MF800VE	Thick solids
	928610570	(R006)	100 x 600	M14	MF800VE	Liquid components

■ Quick change adaptors for easy change of stirrer attachments

■ Handles are positioned further up for a body position which takes the strain off your back

■ No counter-torque acting on the user ensures light work with less physical effort

■ Mixing all types of materials, including viscous and heavy materials, quickly and thoroughly

Two-spindle construction mixers. High torque up to 62 Nm ensuring smooth operation even with high viscosity materials.

SPECIAL FEATURES

- Electronic speed control significantly expands the applications of the tool
- Constant speed electronics maintains pre-selected speed under heavy loads which ensures proper mixing and prevent splashing
- Electronic safety clutch provides safety for the operator
- Metal gearbox casing ensures reliability of structure and resistance to high operational loads
- Soft start function prevent splashing and enhances convenience of application
- Reliable motor with extended long service life.
- Spindles rotating in opposite directions prevent transmission of torque to operator's hands.

TECHNICAL DATA		MKF1200/VE2	MKF1600/VE2
Rated power	W	1200	1600
No load speed	min-1	70-250/140-480	60-250/130-490
Work shaft thread	ISO	5/8"x16	5/8"x16
Torque	Nm	57/27	62/30
Max. volume	L	120	170
Weight	kg	6.25	6.40
Item No.		139260170	139260270
Standart equipment		2 x Mixing paddles, 2 x Quick change tool holders
