

PF82/710
PF82/900M

Powerful professional planers with integrated electronic protection. The planers range is designed for shaping wood and similar materials. Planers are used to flatten, reduce the thickness and smoothen uneven surfaces, beveling and rebating.

SPECIAL FEATURES

- Planning width of 82 mm
- Casted aluminum platform
- High rotation speed of the blades ensures high quality surface finishing
- Smooth adjustment of planning depth
- Inadvertent start interlock
- Soft start (PF82/900M)
- Constant speed electronics (PF82/900M)

TECHNICAL DATA		PF82/710	PF82/900M
Input power	W	710	900
No-load speed of cutter drum	min ⁻¹	14000	13000
Planing depth	mm	0 – 2.0	0 – 3.0
Planing width	mm	82	82
Rebate planning depth	mm	0 – 15	0 – 25
Weight	kg	3.50	3.00
Item No..		135720370	135740170
Standart equipment	Accessory to secure the planer with its footing upwards to be used as a planning machine		

PF102/1100VES
PPF110/950M

SPECIAL FEATURES

- PF102/1100VES**
 - Casted aluminum alloy base plate
 - Rebating depth up to 20 mm
 - A powerful motor for smooth planning of hard wood
 - Electronic overload protection and stabilization of blades
- ensures higher planning quality
- Smooth planning depth adjustment
- Smooth start and starting current limitation electronics
- The planer can be installed in a stationary position using a special appliance

TECHNICAL DATA		PF102/1100VES	PPF110/950M
Input power	W	1100	950
Planing depth	mm	0 – 2.5	0 – 3.5
Planing width	mm	102	110
Rebating depth	mm	0 – 15	16
No-load Speed of cutter drum	min ⁻¹	11000	15000
Motor electronic protection		Yes	Yes
Weight	kg	3.50	7.30
Item No..		135720470	135720270
Standard equipment	Parallel guide limit rebating depth (PF102/1100VES); Chip exhaust adapter (PPF110/950M)
