

RF62/2200VE

Powerful 2200W professional router for routing process of wood and plastic. High precision and stability. Ideal for debburing edges, cutting knots, dovetail assemblies, copy routing and shaping.

SPECIAL FEATURES

- Precise fine adjustment of the routing depth in 1/10-mm steps
- Constant electronics automatically maintains cutter speed under pre-selected load
- Soft Start
- Aluminium alloy gearbox and base
- Fine depth adjustment
- Adjustable paralel guide
- Ergonomic soft grip handles

TECHNICAL DATA		RF 62/2200VE
Input power	W	2200
Cutting depth	mm	62
Collet size	mm	8 / 12
No-load rotation speed	min ⁻¹	11800 – 21000
Weight	kg	6.00
Item No.		136030170

Standart equipment Side stop, clip d 1/2", d 1/4", fixed spanner, 22 mm ,7 mm, transparent guard, dust suction adapter, copier bushing

RF67/2200VE

Powerful professional universal router with the deepest plunge of 67 mm. The device efficiently tackles all the tasks of universal router. Completely adaptable for installation on a router table.

SPECIAL FEATURES

- Precise fine adjustment of the routing depth in 1/10-mm steps
- Automatic spindle lock for easy router bit replacement
- Constant electronics automatically maintains cutter speed under pre-selected load
- Smooth start
- Electronic speed adjustment allowing the selection of optimum speed
- Dust removal system enhances convenience and ensures comfortable working conditions
