

DPF180/800

SPECIAL FEATURES

- Straight polishing machine designed for rough and final polishing of surfaces, removal of paint, rust and for polishing of metal parts. (DPF180/800).
- The tool features adjustable additional handle which makes it convenient both for right-handed and left-handed operators

- Angle polishing machine designed for rough and final polishing of surfaces, removal of paint, rust and for polishing of plastic parts and paint coatings. The tool features electronic speed control in a wide range (AP180/1010VE).
- Ideal for polishing vertical surfaces

TECHNICAL DATA		DPF180/800
Input power	W	800
Rated voltage	V~Hz	230 ~ 50
Polishing disk diameter	mm	180
No-load speed	min ⁻¹	4000
Spindle thread	ISO	M14
Weight	kg	1.60
Item No.		132150170
Standard equipment	Additional handle, flexible disc, fixed spanner, clamping nut, pin spanner	

APF180/1010E

- Mini-polisher suitable for use with one hand.
- Suitable for sensitive surfaces such as acryil and water paints, glass-fiber reinforced plastics, stones
- Lightweight and comfortable
- 180 mm polishing disc diameter

- 2-stage mechanical gear transmission achieving
- Durable metal gearbox housing
- Constant electronics keeps the speed regardless of the applied load

TECHNICAL DATA		APF180/1010E
Input power	W	1010
Rated voltage	V~Hz	230 ~ 50
Polishing disk diameter	mm	180
No-load speed	min ⁻¹	800-1800
Spindle thread	ISO	M14
Weight	kg	1.90
Item No.		134530470
Standard equipment	Additional handle, flexible disc, clamping nut, pin spanner
